Location: Algiers, Algeria
GitHub: github.com/webnoureddine
Portfolio: https://my-cms-portfolio-ten.vercel.app/

PROFILE

Full-stack developer specializing in modern web applications with React and Tailwind CSS, backed by robust Django and Python APIs. Passionate about automation: turning repetitive tasks into efficient, automated systems that scale.

EXPERIENCE

Intern, Graph Analysis Platform January 2025 - April 2025

- Built a powerful graph analysis platform using Python, Django, and React.
- Designed and modeled the data in Neo4j, a graph database, for complex relationship analysis.

EDUCATION

Master in Software Engineering 2019 - 2025

SKILLS

Frontend: React.js, Tailwind CSS, JavaScript ES6+

Backend and APIs: Django, Python, REST APIs

Databases: PostgreSQL, Neo4j (graph database), SQL

Automation: Python

Tools: Git & GitHub, VS Code, Postman, Docker, Vercel, Linux

LANGUAGES

English, French, Arabic
